Easy Day Tour From Seattle

Considered one of the best day trips in the Pacific Northwest! Travel with Kenmore Air to the charming seaside village of Friday Harbor on San Juan Island.

Kenmore Air's seaplane base is conveniently located near downtown Seattle. The hour long scenic flight to San Juan Island will land in the Friday Harbor Marina, just minutes from our San Juan Safaris location.

Enjoy the many shops and restaurants of Friday Harbor before getting on board our 3-4 hour Whale Watch and Wildlife Tour.

Our main vessel, the 55 foot Sea Lion, is new, fast and has ample viewing space. With a windowed, heated cabin, full wrap around viewing deck, restroom, and both inside and outside seating, the M/V Sea Lion delivers a comfortable ride. Naturalists on board will interpret one of the most unique and beautiful marine environments.

We pride ourselves on high quality tours that encounter whales on over 90% of our tours during peak season.

Respectful Wildlife Viewing
